The track readiness of your car is YOUR responsibility. Cars driven on track require a high level of preparation, maintenance, and relevant understanding. The checkpoints listed below are a **guide only** to help you arrive at the track with a well-prepared vehicle. **Your car may have specific requirements not listed here.** Signing at the bottom of this form acknowledges that you have accepted responsibility that the vehicle listed above is safe and well-maintained. If you do not have the skills, knowledge, and/or time to perform this inspection, please have this done by a professional mechanic.

Convertibles on track: The Camaro Fest and NCM MSP allows convertibles on track only if they have factory rollover protection, or if they have aftermarket-installed rollover protection that meets the most current SCCA standards.
